

Elevate Post 16 Options Event

Elevate Bracknell Forest are hosting a post 16 options event at the open learning centre on the 30th March 2023. This event is aimed at our NEET young people, as well as looked after children and care leavers. We also extend this invite to at risk of NEET students in year 10 and 11 throughout Bracknell Forest.

We ran this event for the first time last year and mainly had education and training providers. This year we would like to include companies that may be able to promote any apprenticeships or vacancies they would have throughout the year. Giving the young people an idea of all the post 16 options available to them and where to considering looking for these when they are ready.

Is this something that your business may be interested in attending and promoting opportunities you currently have or may have in the future for young people?

If you feel this could be something, you are interested in please contact the Elevate team on elevate@bracknell-forest.gov.uk for more information or to set up a meeting.
